EDUCATION

VIT University, Bachelor of Technology in Computer Science and Engineering – CGPA: 9.14 Sept 2021 – Aug 2025
SBS College, Karad, PCM – Percentage: 95.33 June 2019 – Sept 2021

WORK EXPERIENCE

ITS Planners & Engineers | Associate Software Developer – Hyderabad, Telangana Feb 2025 – Present

- Integrated REST APIs over HTTPS using the Dio library in cross-platform Flutter/Dart mobile applications.
- Tested applications across 3+ private network environments using VPNs to validate secure connectivity and API behavior. Worked with various Flutter plugins, including maps and geolocation (GeoLocator), to implement location-based and interactive features.
- Optimized GTFS-based complex UX workflows, achieving a 75% reduction in task completion time (20 min to 5 min).
- Enhanced analytics dashboard UX by implementing 10+ dynamic, interactive visualizations using HTML, CSS, JavaScript, and ECharts.
- Technologies: Flutter, Dart, Dio, GTFS, HTML, CSS, JavaScript, ECharts

IIT Bombay – IDC School of Design | Summer Intern – Mumbai, Maharashtra May 2024 – July 2024

- Conducted applied research on 5+ authentication mechanisms, balancing security, usability, and real-world constraints.
- Evaluated 5+ methods including PINs, Passfaces, celebrity-based graphical passwords, pattern locks, and TouchPIN.
- Technologies: UX Research, Human-Computer Interaction (HCI)

CERTIFICATIONS

- AWS Certified Cloud Practitioner | Amazon Web Services | AWS03853051
- Software Engineering Job Simulation – JPMorgan Chase & Co. | Forage

PROJECTS

Daily Pulse – [GitHub Link](#) Oct 2025 – Nov 2025

- Built a cross-platform Flutter app with less than 10s mood logging, 5+ mood categories, and 2–3 tap UX.
- Integrated Hive local storage and Firebase Firestore sync, supporting 100+ mood entries per user.
- Configured custom Android launchers for environment-specific builds and consistent branding.
- Implemented 7+ day mood trend analytics using fl_charts for dynamic, interactive data visualization.

Parking Lot Management System – [GitHub Link](#) Dec 2024 – Jan 2025

- Developed a multi-floor Parking Lot Management System in Java, supporting CRUD operations for managing 3+ vehicle types (cars, bikes, trucks).
- Implemented dynamic slot assignment and un-parking logic across multiple floors, handling 10+ parking scenarios with real-time availability updates.
- Applied OOP principles to design 5+ core components, ensuring modular and maintainable architecture.

TECHNICAL SKILLS

- **Programming Languages:** Java, Dart, Python
- **Tools & Technologies:** Flutter, Dart, Dio, REST APIs, GTFS, HTML, CSS, JavaScript, ECharts, Figma, GitHub
- **Databases:** MySQL, Firebase (Firestore)
- **Cloud & DevOps:** Docker, Git, GitHub

ACHIEVEMENTS

- Solved 370+ DSA problems across LeetCode, GeeksforGeeks, Codeforces, and college platforms.
- Secured Rank 1 (District) in 10th Board Examination, Maharashtra State Board.
- 2nd Runner-Up, SIMCA Coding Competition (SIMCA-MCA)
- Volunteer, IndiaHCI 2024 Conference, supporting academic and industry coordination.
